III. Consolidation of Comments/Remarks

| | |
|--------------------|---|
| Create an Event | No error checking for invalid dates; hint is not removed; intrusive save button |
| Delete an Event | Difficult to distinguish between events, hard to see if event has been deleted |
| Edit an Event | Intrusive save button |
| View an Event | Hard to distinguish between view and edit Activities |
| View all Events | |
| View Map | |
| Get Location | |
| Crashes Gracefully | No crashes |
| Tester's Comments | Lol nice app, mahirap kising implement laging may "Event Name" sa event nameagad, kailangan pang i-delete allows impossible dates difficult to differentiate events. |

| | |
|-------------------|---|
| 1 | Too many Activities look alike |
| 2 | |
| 3 | Un-clear, hard to select/view events |
| 4 | Not user friendly, does not comply with flat UI design |
| 5 | Can check/un-check all day checkbox in view task |
| 6 | Hard to distinguish between events |
| 7 | Does not provide status of successful add or edit |
| 8 | Too little |
| 9 | Can't tell which event was selected |
| 10 | Floating save button, hard to edit when keypad is visible |
| 11 | Lacks color |
| 12 | UI design too simple, hard to distinguish between events, hard to read text |
| 13 | No icons; Can't find add event |
| 14 | Text too small |
| 15 | |
| 16 | |
| 17 | |
| 18 | |
| 19 | |
| 20 | |
| 21 | No error handling |
| 22 | No error handling / messages |
| 23 | |
| 24 | No help text / instructions |
| 25 | No instructions, inconvenient |
| Tester's Comments | Fix UI |

IV. Reflection of the Group

As the developers of the program, we've realized that pressure may be needed in order for a group to perform better; the complacency that comes to those not experiencing any pressure to perform, to work, to deliver can cause us not to work adequately or at all.
